

# FIORE BLACK

**INDENT ONLY**

**ART.766N**

**ART.767N**

## FIORE BLACK SIMPLE AND ELEGANT

The traditional Fiore's design is now even more elegant, more practical and adaptable to every environment thanks to the ELEGANCE aluminum pole and the anti-tilting free standing base.

## EFFICIENT, FAST AND CLEAN HEATING

Like all the other MO-EL Lamps, Fiore works without the supply of any type of gas. The short infrared waves concentrate the effect only where needed. The work costs are lower than other sources of heat. Fiore is the perfect solution both for small and large surroundings requiring an immediate heating.

**IP65**

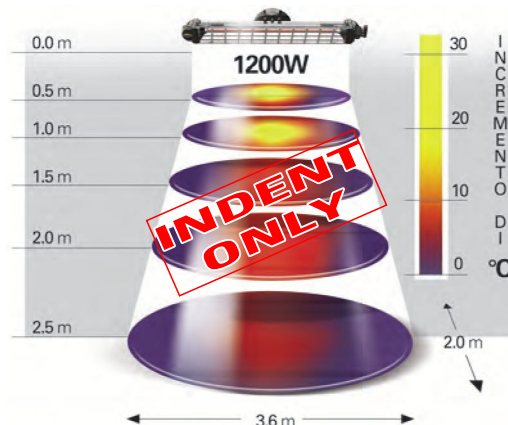

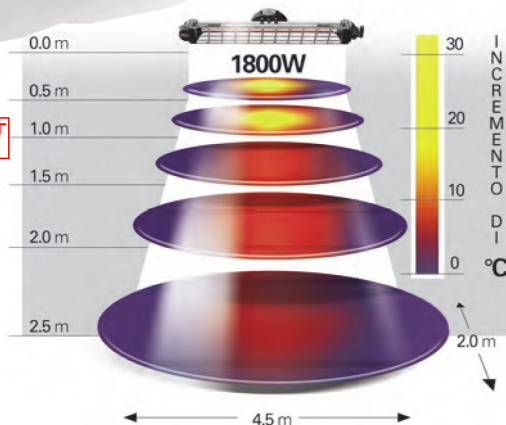

Complete with Flex, Plug & wall bracket

Infrared lamp 1200W  
METEL MOE002450
