

PETALO

ELEGANCE AND CHARACTER

For settings that require moderate and smart solutions and have a strong personality. Compactness and stability are combined with an unique design characterized by intense colors and clear lines.

VERSATILE

Thanks to the technology of our license, Petalo Can be subjected to water jets (IP55) with no protective glass, while maintaining a low weight for easy mobility.

EFFICIENT

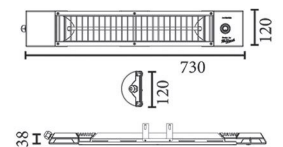

The glass absorbs some of the power emitted by the lamp. The absence of glass is a further substantial advantage in terms of energy output.

A DESIGN THAT DOES NOT GO UNNOTICED

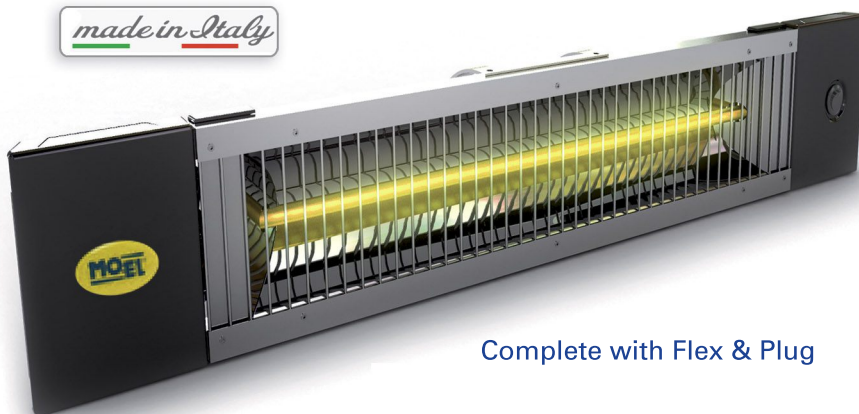

The design is unique: the lamp that reduces the annoying reflections, power button for easy use, durable chrome-plated front grille in a minimalist style and the parable of the wing seagull high reflectivity (design Pino Spagnolo).

ART.722WP **INDENT ONLY**

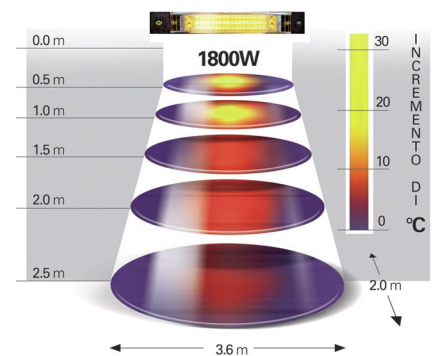

ART.728WP

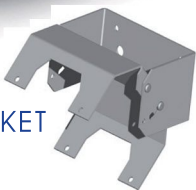

made in Italy

Complete with Flex & Plug

ART.3205
WALL BRACKET

TECHNICAL FEATURES	722WP	728WP
Dimensions	730x38x120mm	830x38x120mm
Weight	1.1 kg	1.3 kg
Power supply	220-240 V ~ 50-60HZ	380-415 V ~ 50-60HZ
Lamp	frozen	frozen
Luminous Emission	IR-A	IR-A
Cable and switch	-	-
Power	1200W	1800W
Range of action	4-6 mq	6-8 mq
Metel Code	MOE722WP	MOE728WP
